

4th International Conference on Infectious Diseases

September 09-10, 2026 | Barcelona, Spain

**INFECTIOUS
DISEASES
2026**

Theme: "Emerging Pathogens, Evolving Challenges: Innovations in Prevention and Control"

This HYBRID EVENT allows you to participate as In person at Barcelona, Spain or Virtually from your home or workplace.

Overview:

The Infectious Diseases 2026 is a premier platform dedicated to professionals, researchers, clinicians in the field of infectious diseases and microbiology. The conference aims to facilitate knowledge exchange, highlight ground breaking research, and explore the latest innovations in prevention, diagnosis and control of infectious diseases worldwide. It brings together global experts, healthcare practitioners, epidemiologists, to discuss emerging trends, challenges, and strategies for managing infectious threats and improving global health security.

Sponsorship and Exhibitor Opportunities:

We are excited to invite you to sponsor and exhibit at Infectious Diseases 2026. If you have more queries on **Exhibitor** and **Sponsorship** please write an email to info@scitechseries.com

Call for Abstracts:

We warmly invite healthcare professionals, researchers, microbiologists, epidemiologists, public health experts and students to participate in the Infectious Diseases 2026 by submitting abstracts that highlight their latest research, innovations, and case studies in the field of infectious diseases and global health.

Whether your work focuses on clinical practice, academic research, diagnostics, therapeutics, this is an excellent opportunity to share your findings with an international audience.

A sample abstract template is available on the Abstract Submission page of the conference website. All accepted abstracts will be included in the Conference Extended Abstract Book, which will be available online and distributed during the event.

Join us in Barcelona, Spain, on September 09–10, 2026, and be part of shaping the global response to infectious diseases by presenting your valuable research at the Infectious Diseases 2026!
