The primary focus of the conference will be on the theme “ **Mind Matters: unraveling the Mysteries of Brain Disorders”**

ICDB 2024 is an annual event that brings together global public health experts to facilitate the exchange of the latest insights on factors influencing the emergence, transmission, and control of Neurology. This international conference, occurring at a critical juncture, will primarily focus on recent notable clinical cases. It is tailored to cater to the interests of faculty members, researchers, scientists, healthcare practitioners, clinicians, Neuro health specialists, Neuro caregivers, industry representatives, and Neurology professionals. Also, this conference has distinguished keynote presentations, interactive panel discussions, oral abstract presentations, poster sessions, and a diverse array of scientific and public health exhibitors, all contributing to a comprehensive program. The Congress is committed to upholding its reputation for excellence by delivering timely exploration of cutting-edge topics in the realm of emerging Neurology.

We extend a warm invitation to ICDB 2024 to address the challenges posed by Neurology and pandemics.
