# ABOUT EXHIBITOR

Ceres Chill is a revolutionary breast milk storage system designed to support modern, multitasking parents. Made from durable, medical-grade stainless steel, it offers a stylish and sustainable alternative to bulky coolers and single-use plastic storage bags. The innovative design keeps breast milk safe and at the proper temperature for over 20 hours, eliminating the need for ice packs, refrigerators, or access to electricity—making it ideal for work, travel, or on-the-go pumping. The chiller includes a versatile inner chamber that can hold up to 12 ounces of milk and a thermal outer chamber that fits most standard-size baby bottles, pump parts, or milk bags. Ceres Chill is compatible with many popular breast pump brands, allowing for direct pumping into the chiller itself, streamlining the entire process for busy parents.

Created by a mom and designed with both functionality and style in mind, Ceres Chill is committed to sustainability, convenience, and empowering breastfeeding journeys with confidence and ease.
